

179D ENERGY EFFICIENT COMMERCIAL BUILDING TAX DEDUCTION

DID YOU KNOW?

In February 2018, Congress passed, and the president signed into law, the latest government spending bill, titled the Bipartisan Budget Act of 2018, which includes a 1-year extension of the Energy Efficient Commercial Building Deduction, Section 179D, making it available to architects, engineers, contractors, and property owners for building projects completed in 2017.

The Section 179D Energy Efficient Commercial Building Deduction provides for a powerful tax deduction of up to \$1.80 per square foot for newly constructed or recently renovated commercial buildings. Buildings' energy efficiencies are compared to a 2001 or 2007 standard, so most recent construction or renovated commercial buildings will pass the qualification tests.

DESIGN-BUILD CONTRACTOR CASE STUDY:

ELIGIBLE BUSINESSES THAT CAN TAKE ADVANTAGE OF THIS LUCRATIVE INCENTIVE INCLUDE:

- Architecture, Engineering, and Construction firms who are involved in the design of government-owned (local, state, or federal) commercial buildings
